

Fall 2018 Admitted, Not Enrolled Report

Subsequent Enrollment Analysis of the Fall 2018 First Year Admitted Students

Academic and Enrollment Services 11/12/2018

Summary

During the fall 2018 application cycle, the campus received over 22,000 applications for freshman admission. About 15,900 students were admitted and 4,159 new freshmen enrolled for fall term. The increase in applications and enrollment can be attributed to a broader recruitment pool and heightened prominence of the academic programs. To contribute to the continued evaluation and improvement of the recruitment and yield efforts, this report considers the enrollment decision of the admitted students who opted to not enroll at UIC. That is, asking: **if not UIC, then where?** The National Student Clearinghouse (NSC) Student Tracker services was used to verify subsequent enrollment of students who were admitted but did not enroll at UIC (ANE). Of approximately 11,800 records submitted to NSC, 10334 enrollment records were returned with an enrollment record at one of the 3600 institutions across the U.S. participating in NSC. A total of 59% are attending an institution in Illinois; 58% are at a public institution. Results from admit, not enrolled analysis provide insights to UIC competitors. Disaggregated results are included and allow for understanding enrollment choices of different populations.

Methods

Records of the admitted and enrolled students were extracted from the application and registration databases. The first year application, admit and enroll pool disaggregated by racial/ethnic group is shown in table 1. This represents the total <u>individuals</u> applying for admission. Table 2 shows the application pool by college and thus represents the total <u>applications</u> submitted. A total of 1298 applicants applied to more than one college; 13 students were admitted to more than one college. The overall individual admit rate was 76% and the yield rate was 26%. [That is, of all the individuals who applied to UIC, 76% were admitted to at least one college.] These rates vary across different race/ethnic groups and colleges.

The ANE pool is comprised of approximately 11,793 individuals who were admitted to UIC but did not enroll (two individuals were admitted to two colleges). Table 3 reports the ANE population by college of admission and race/ethnicity.

A request for enrollment records of the ANE population was submitted to the NSC Student Tracker service in November 2018. A total of 10,334 useable records were returned. There was no NSC enrollment records for 1,459 students (12%) and 51 records were blocked from distribution.

Results

The 10,334 subsequent enrollment records from the NSC represent about 88% of the ANE total. Of the 10,334, 87% are enrolled at 4-year institutions, 58% at public institutions, and 60% at Illinois institutions. The breakout of enrollment by institution type (2-year/4-year) and control (public/private) is shown in Table 4.

TABLE 4: ANE Records by Institution Type and Control									
All Records - by Type and Control									
	Public	Private	Total						
2-Year	1,346		1,346	13%					
4-Year	4,636	4,352	8,988	87%					
Total	5,982	4,352	10,334	_					
	58%	42%							
Illinois Institutions only Control - by Type and Control									
_	Public	Private	Total	-					
2-Year	1,253		1,253						
4-Year	2,207	2,718	4,925	<u>.</u>					
Total	3,460	2,718	6,178	-					

Table 5 provides the number of students enrolled at each of the top 30 institutions of subsequent enrollment with the percent of total records and detail by college. Due to large differences between total number of ANE and subsequent enrollment record counts, the college data in Table 5 are presented as percentage of total ANE records for each college. For example, the 1,583 students enrolled at UIUC represents 15.3% of the total subsequent enrollments (N=10,334). For CBA, it is 14.1% of the 1,197 total subsequent enrollment records tied to CBA; similarly for Engineering, UIUC enrollment represents 20.5% of the 2,170 subsequent enrollments. The bottom two rows of the table show the total number of students reflected in the ANE file and the total number of different institutions reflected in the ANE enrollments.

Table 6 displays the top ten institutions of subsequent enrollments by rank order, with the comparison rank place of the institution for the Fall 2015, 2016 and 2017. This information provides a context of the consistency and movement of the key competitor institutions. The top five institutions are remarkably consistent over time, with some variation in the six through ten spots.

TABLE 6: ANE Subsequent Enrollment Institutions - Rank Order 2015 - 2018

MARQUETTE UNIVERSITY	9	7	6	9	
CCC - WRIGHT COLLEGE	10	6	12	14	

Similar to table 6, Table 7 provides a historical context showing the top 20 subsequent enrollment institutions for Fall 2018 (with percentage of the ANE records at each) in contrast to the Fall 2017 figures for the institutions. For example, 1583 ANE students are enrolled at UIUC in Fall 2018 – 15.3% of the ANE records. In Fall 2016, the number was 1319 which accounted for 14.6% of the ANE records. The change was an increase of 264 students. It is important to note that the overall number of admits in 2018 increased 1473 or 10% from the 2017 fall admit cycle.

Racial and Ethnic diversity is a key point of interest for campus enrollment. With this in mind, tables 8 through 11 display the top subsequent institutions of enrollment for Asian, African American, Hispanic and Caucasian students respectively. There were 2,139 Asian students with a NSC record, enrolled at 288 different institutions. For the other groups the counts were: 1,173 at 296 institutions for African American students; 3,155 Hispanic students enrolled at 385 institutions; and 2,951 Caucasian students at 444 institutions.

Geographic diversity is examined through the residency status of the student. Of the total admitted pool, Illinois residents comprise 72% with domestic, non-Illinois residents totaling 18% and International at 10%. Table 12 shows the top institutions of subsequent enrollment for domestic non-residents and International admits.

Table 13 shows the subsequent enrollments of students disaggregated by SAT or ACT scores—a measure of preenrollment academic preparation. Three SAT/ACT groupings are shown — SAT 1000-1199 or ACT 21 to 24; SAT 1200-1399 or ACT 25-30; and SAT>1399 or ACT>30. The top three institutions remain the same across the groups, followed by more distinct enrollment choices for each ACT group.

Appendix A

Constructing the Data Set

The data were received from NSC in early November. Multiple enrollment records may be reported, for example, in instances of summer and fall enrollment at different institutions and dual enrollments. In instances where the NSC response file reflected multiple institutions of enrollment, the criteria to establish a single subsequent enrollment record: (a) if concurrent enrollment reflected a part-time and full-time attendance, the institution of full-time attendance was used. And (b) if concurrent enrollment reflected a two-year and four-year institution, the four-year institution was used.

Appendix B

Admit/Decline Survey Responses 2018

Of the 15,750 admitted first-year applicants, 3,095 students formally declined their offer admission via their online application status portal or by making the request in writing to UIC Admissions. That group received a confirmation email that they had declined admission, and within that confirmation email, were invited to complete a survey about why they made their decision.

A total of 380 survey responses were received in 2018: 338 from admitted first-year applicants (roughly 11% of all those who formally declined admission), with another 42 responses from admitted transfer applicants (out of 323 declined offers and 3,323 offers of transfer admission).

Tables on the following page describe the survey respondents, broken down by application/student type, admitting college, and race/ethnicity category. All are disaggregated using a survey question which asks respondents to report where UIC ranked in their college choices at the time they applied.

Admit/Decline Survey Respondents

At time of application, UIC ranked as respondent's...

	1st	2nd	3rd			
Student/Application Type	Choice	Choice	Choice	Lower	(blank)	Total
First Year	86	74	74	95	9	338

Primary Reasons for Declining UIC/Accepting Other Offer

The survey asks respondents in separate to choose from a list of options that best explain their reason for both why they declined UIC's offer of admission and why the accepted admission from another institution.

Financial aid offers and cost of attendance are prominent reasons both for declining UIC's offer of admission and accepting admission elsewhere. Respondents who ranked UIC as a first or second choice school at the time of application are over-represented in these financial categories.

Program reputation was the top response for why respondents accepted another school's offer of admission, but note that this is most often a reason provided by respondents who ranked UIC third or lower on their initial college-choice rankings.

	Primary reason the respondent						
	Decline	d UIC admi	ission	Accepted another offer			
	All	UIC 1st/2nd	1st/2nd Choice	All	UIC 1st/2nd	1st/2nd Choice	
Single-Choice Options	Responses	Choice	% of All	Responses	Choice	% of All	
Campus facilities	13	4	30.8%	13	4	30.8%	
Campus location	46	22	47.8%	34	21	61.8%	
Cost of attendance	64	43	67.2%	45	36	80.0%	
Financial aid offer	84	53	63.1%	81	46	56.8%	
Gap year	3	3	100.0%	-	-	-	
Interactions with the staff	7	4	57.1%	15	10	66.7%	
Military	1	0	0.0%	-	-	-	
Program reputation	68	27	39.7%	119	47	39.5%	
Timing of admission decision	10	8	80.0%	6	4	66.7%	
Other*	67	31	46.3%	35	18	51.4%	
Total	363	195	53.7%	348	186	53.4%	

*Open-ended responses to the
"Other" option were sorted into
general buckets for summary
purposes. Common buckets are
characterized below.

The most common categories were Program Offering (14), Fit (11), Aid Offer (8), Early Decision (7), and Program Reputation (5).

Most common categories were Aid Offer (5), Program Offering (5), and Cost of Attendance (3).

- Aid Offer: Not enough financial aid, had trouble with financial aid process. Often in conjunction with other things (fit, cost, etc.).
- Cost of Attendance: Cost of attendance was beyond family's means, chose to begin at a 2-year institution to save money.
- Early Decision: Admitted to binding Early Decision agreement. UIC is less likely to be a top-3 choice for these students.
- Fit: Attending "dream school" or felt another campus was a better fit. Peaks in "2nd choice" group.
- Program Offering: Not offered preferred major; Majors/coursework tailored to interests; Direct-entry into Nursing, Social work.
- Program Reputation: Admitted to a "better" program, UIC was a backup, or attending more highly-ranked school.

What Might Have Changed Their Decision

Respondents are presented with a multiple-choice list of factors and asked to identify any that would have changed their decision and influenced them to accept UIC's offer of admission. Respondents who identify any of Scholarships, Grants, or Loans (255 respondents in 2018) are presented with an additional question that asks them to estimate the amount of money that would have made them change their decision.

Additional scholarships and grants were overwhelmingly cited as the main factors that might have swayed decisions. Roughly 80% of the students who responded to the second question about the amount said that it would have taken either \$5,000 to \$10,000 or a full ride to sway their decision.

Factors that would have changed their decision

Factors	Count
Scholarships	241
Grants	161
Location	63
Other	58
Facilities	55
Loans	42
Interactions with Staff	34
Communications	30
Timing of Decision	27

Amount of additional aid that would have changed decision

Amount	Count
\$1,000-\$1,999	11
\$2,000-\$4,999	37
\$5,000-\$10,000	117
All costs covered	80

Appendix C

Non-Cognitive Survey Results of Students Who Did Not Enroll at UIC

UIC's Office of the Vice Provost for Undergraduate Affairs and Academic Programs administers a non-cognitive survey to incoming students as a tool to help academic advisors identify students who might need additional support during their undergraduate tenure. The survey is taken alongside UIC placement exams, which means that some admitted students complete the survey but do not wind up enrolling at UIC.

In 2018, 324 students completed the survey without enrolling at UIC. We compared this small group of students with the 3,604 survey responses by enrolled students and found statistically significant differences in several categories that might add additional points to the narrative of admits who do not enroll, and particularly those admits who are considering UIC strongly enough to complete pre-enrollment steps like this survey (i.e. students who "melted" over the summer).

T-tests were performed to compare the mean ratings of students who melted compared to those who enrolled. In the Fall 2018 cohort of non-cognitive survey responses, the "melt" students who did not enroll self-reported higher ratings in Time Management (2.52 compared to 2.40 for enrolls, p = 0.003) and Academic Self-Efficacy (3.28 compared to 3.19, p = 0.045).

On the other hand, the "melt" students who did not enroll averaged lower ratings in the Sense of Belonging section. There was a statistically significant different for both the 2018 and 2016 cohorts, with non-matriculating students rating their Sense of Belonging lower (2018: 2.94) than the students who do ultimately enroll at UIC (2018: 3.02, p = 0.037). While this trend is not observed in all three cohorts that have taken the non-cognitive survey, it may still point to an important factor for students on the fence between UIC and another school.
