

Fall 2019 Admitted, Not Enrolled Report

Subsequent Enrollment Analysis of the Fall 2019 First Year and Transfer Admitted Students

Academic and Enrollment Services

11/26/2019

Summary

During the Fall 2019 application cycle, the campus received 23,539 applications for first-year admission. 16,585 applications received favorable decisions, for an admitted student headcount of 16,501. By census, 4,407 new first-year students had enrolled for fall term. The increase in applications and enrollment can be attributed to a broader recruitment pool and heightened prominence of the academic programs. To contribute to the continued evaluation and improvement of the recruitment, admission, and yield efforts, this report considers the enrollment decision of the admitted students who opted to not enroll at UIC. That is, asking: **if not UIC, then where?** The National Student Clearinghouse (NSC) Student Tracker services was used to verify subsequent enrollment of students who were admitted but did not enroll at UIC (ANE). Of approximately 12,904 individual records submitted to NSC, 10,731 enrollment records were returned with an enrollment record at one of the 3,600 institutions across the U.S. participating in NSC. A total of 59% are attending an institution in Illinois; 59% are at a public institution in the U.S. Results from admitted, not enrolled analyses provide insights to UIC competitors. Disaggregated results are included and allow for understanding enrollment choices of different populations.

Methods

Records of the admitted and enrolled students were extracted from the application and registration databases. The first year application, admit and enroll pool disaggregated by racial/ethnic group is shown in Table 1. This represents the total individuals applying for admission. Table 2 shows the application pool by college and thus represents the total applications submitted. The overall individual admit rate was 72.7% and the yield rate was 26.7%. [That is, of all the individuals who applied to UIC, 76% were admitted to at least one college.] These rates vary across different race/ethnic groups and colleges.

Race/Ethnicity	Apps	Admits	Enrolls	Admit Rate	Yield Rate
American Indian or Alaska Native	28	17	2	60.7%	11.8%
Asian	3,675	3,200	962	87.1%	30.1%

Results

Submission of the ANE population resulted in 10,731 usable records from the NSC. The 10,731 subsequent enrollment records represent about 89% of the ANE total. Of the 10,731, 86% are enrolled at 4-year institutions, 59% at public institutions, and 59% at Illinois institutions. The breakout of enrollment by institution type (2-year/4-year) and control (public/private) is shown in Table 4.

All Records - by Type and Control				
	Public	Private	Total	
2-Year	1,472		1,472	14%
4-Year	4,888	4,371	9,259	86%
Total	6,360	4,371	10,731	
	59%	41%		
Illinois Institutions only - by Type and Control				
	Public	Private	Total	
2-Year	1,331		1,331	
4-Year	2,297	2,733	5,030	
Total	3,628	2,733	6,361	

Table 5 provides the number of students enrolled at each of the top 30 institutions of subsequent enrollment with the percent of total records and detail by college. Due to large differences between total number of ANE and subsequent enrollment record counts, the college data in Table 5 are presented as percentage of total ANE records for each college. For example, the 1,587 students enrolled at UIUC represents 14.8% of the total subsequent enrollments (N=10,731). For CBA, it is 13.4% of the 1,366 total subsequent enrollment records tied to CBA; similarly for Engineering, UIUC enrollment represents 22.5% of the 1,694 subsequent enrollments. The bottom two rows of the table show the total number of students reflected in the ANE file and the total number of different institutions reflected in the ANE enrollments.

*Percentages represent proportion of total subsequent enrollments (column total).

Table 6 displays the top ten institutions of subsequent enrollments by rank order, with the comparison rank place of the institution for the Fall 2015, 2016, 2017, and 2018. This information provides a context of the consistency and movement of the key competitor institutions. The top five institutions are remarkably consistent over time, with some variation in the six through ten spots.

Similar to table 6, Table 7 provides a historical context showing the top 20 subsequent enrollment institutions for Fall 2019 (with percentage of the ANE records at each) in contrast to the Fall 2018 figures for the institutions. For example, 1,587 ANE students are enrolled at UIUC in Fall 2019 – 14.8% of the ANE records. In Fall 2018, the number was 1,583 which accounted for 15.3% of the ANE records. The change was an increase of 4 students.

*percentages represent proportion of ANE records for each year.

Racial and Ethnic diversity is a key point of interest for campus enrollment. Tables 8 through 11 display the top 20 subsequent institutions of enrollment for Asian, Black/African American, Hispanic and White students, respectively. There were 2,071 Asian students with an NSC record, enrolled at 295 different institutions. For the other groups the counts were: 1,229 at 288 institutions for Black/African American students; 3,444 Hispanic students enrolled at 396 institutions; and 3,106 White students at 497 institutions.

Geographic diversity is examined through the residency status of the student. Of the total admitted pool, Illinois residents comprise around 80% with domestic, non-Illinois residents totaling 13.5% and International at 6.5%. Table 12 shows the top institutions of subsequent enrollment for domestic non-residents and International admits.

**For context, UIUC typically tops this list, enrolling 88 DOOS in 2018 and 86 in 2017.*

Tables 13-16 show the subsequent enrollments of students disaggregated by ACT concordance scores– a measure of pre-enrollment academic preparation. Four quartile groups are presented, with the first quartile including ANE records with a 21 ACT or lower, second quartile ACT 22-24, third quartile ACT 25-28, and the fourth quartile including ACT scores of 29 or higher. The top institutions remain relatively consistent across the groups, followed by more distinct enrollment choices for each ACT group.

Appendix A

Constructing the Data Set

The data were received from NSC in early November. Multiple enrollment records may be reported, for example, in instances of summer and fall enrollment at different institutions and dual enrollments. In instances where the NSC response file reflected multiple institutions of enrollment, the criteria to establish a single subsequent enrollment record: (a) if concurrent enrollment reflected a part-time and full-time attendance, the institution of full-time attendance was used. And (b) if concurrent enrollment reflected a two-year and four-year institution, the four-year institution was used.

Appendix B

Transfer Admitted, Not Enrolled: Fall 2019 snapshot

The following tables represent a snapshot of the subsequent enrollment institutions for the Fall 2019 Transfer admits who did not enroll at UIC. Given UIC's strong yield numbers in transfer applicants, this population is significantly smaller than that of the first-year pool; a more longitudinal analysis will be done to factor in more years and spring term admissions.

For Fall 2019, UIC received 6,091 transfer applications and offered admission to ### individual transfer applicants. At census, 2,069 new transfer students were enrolled, leaving ### transfer ANE submitted to NSC. Of that group, 917 usable records were returned and are broken down in Table A and Table B by 2-year/4-year and Public/Private institutions. In Table C and Table D, the top 20 Transfer ANE institutions are broken down by race/ethnicity and college.

Table A: Fall 2019 Transfer Admitted, Not Enrolled

	2-Year	4-Year	Total	
Private		384	384	41.9%
Public	159	374	533	58.1%
Total	159	758	917
