

Fall 2017 Admitted Not Enrolled Report

Subsequent Enrollment Analysis of Fall 2017 First-Year Admitted Students

Executive Summary

During the fall 2017 application cycle, the campus received over 19,000 applications for first-year admission. About 14,300 students were admitted and 4,050 new freshmen enrolled for fall term. The increase in applications and enrollment can be attributed to a broader recruitment pool and heightened prominence of the academic programs. This report considers the enrollment decision of the admitted students who opted to not enroll at UIC. That is, asking: **if not UIC, then where?**

The National Student Clearinghouse (NSC) Student Tracker services was used to verify subsequent enrollment of students who were admitted but did not enroll at UIC (ANE). Of approximately 10,400 records submitted to NSC, 9,045 enrollment records were returned with an enrollment record at one of the 3,600 institutions across the U.S. participating in NSC. A total of 59% are attending an institution in Illinois; 58% are at a public institution. Results from admit, not enrolled analyses provide insights to UIC competitors. Disaggregated results are included and allow for understanding enrollment choices of different populations.

Results

Records of the admitted and enrolled students were extracted from the application and registration databases. The first year application, admit and enroll pool disaggregated by racial/ethnic group is shown in table 1. This represents the total individuals applying for admission. Table 2 shows the application pool by college and thus represents the total applications submitted. A total of 323 applicants applied to more than one college; ten students were admitted to more than one college. The overall admit rate was 77% and the yield rate was 28%. These rates vary across different race/ethnic groups and colleges.

Table 1: Fall 2017 Application, Admit and Enroll Totals by Race/Ethnicity

R/E	Apply	Admit	Enroll	Adm Rate	Yield
AIAN	17	12	2	70.6%	16.7%

19,411	14,488	4,050
--------	--------	-------

The ANE pool is comprised of approximately 10,425 students who were admitted to UIC but did not enroll. Table 3 reports the ANE population by college of admission and race/ethnicity.

Table 3: 2017 Admitted, Not Enrolled Population by College of Admissions and Race/Ethnicity

R/E	CBA	EDUC	ENGIN	CADA	LAS	AHS	CUPPA	Total
AIAN	3		1	1	4	1		10
Asian	223	15	354	60	1,114	64	5	1,835

Total	1,200	198	1,675	644	6,355	323	36	10,431

A request for enrollment records of the ANE population was submitted to the NSC Student Tracker service in November 2017. A total of 9,045 useable records were returned. There was no NSC enrollment records for 1,131 students (11%) and 47 records were blocked from distribution.

The 9,045 subsequent enrollment records from the NSC represents about 87% of the ANE total. Of the 9,045, 86% are enrolled at 4-year institutions, 58% at public institutions, and 59% at Illinois institutions. The breakout of enrollment by institution type (2-year/4-year) and control (public/private) is shown in Table 4.

Table 4: Count of Admit Not Enrolled by Institution Type and Control

All - by Type and Control				
	Public	Private	Total	
2-year	1,221		1,221	13%
4-year	3,996	3,828	7,824	87%
Total	5,217	3,828	9,045	
	58%	42%		
Illinois Institutions only - by Type and Control				
	Public	Private	Total	
2-year	1,117		1,117	
4-year	1,844	2,413	4,257	
Total	2,961	2,413	5,374	

Table 5 provides the number of students enrolled at each of the top 30 institutions of subsequent enrollment with the percent of total records and detail by college. Due to large differences between the total number of ANE and subsequent enrollment record counts, the college data in Table 5 are presented as percentages of the total ANE records for each college. For example, the 1,319 students enrolled at UIUC represents 14.6% of the total subsequent enrollments (N=9,045). For CBA, it is 11.9% of the 1,014 total subsequent enrollment records tied to CBA; similarly for Engineering, UIUC enrollment represents 23.7% of the 1,394 subsequent enrollments. The bottom two rows of the table show the total number of students reflected in the ANE file and the total number of different institutions reflected in the ANE enrollments.

* percentages of subsequent enrollments (total of the column)

Table 6 displays the top ten institutions of subsequent enrollments by rank order, with the rank order place of the institution for the Fall 2016 and Fall 2015 ANE files. This information provides a context of the consistency and movement of the key competitor institutions.

Table 6: Top 10 Institutions of Subsequent Enrollment by Fall 2017 Rank Order with 2016 and 2015 Comparisons

Institution	2017	2016	2015
UNIVERSITY OF ILLINOIS @ URBANA	1	1	1

BRADLEY UNIVERSITY	9	15	28
DOMINICAN UNIVERSITY	10	9	13

Similar to table 6, Table 7 provides a historical context showing the top 20 subsequent enrollment institutions for Fall 2017 (with percentage of the ANE records at each) in contrast to the Fall 2016 figures for the institutions. For example, 1,319 ANE students are enrolled at UIUC in Fall 2017 – 14.6% of the ANE records. In Fall 2016, the number was 1,360 which accounted for 15.8% of the ANE records. The change was a decrease of 41 students.

Race and Ethnicity Comparisons

Racial and Ethnic diversity is a key point of interest for campus enrollment. With this in mind, tables 8 through 11 display the top subsequent institutions of enrollment for Asian, African American, Hispanic and Caucasian students respectively.

Residency Comparisons

Geographic diversity is examined through the residency status of the student. – Of the total admitted pool, Illinois residents comprise 72% with domestic, non-Illinois residents totaling 18% and International at 10%. Table 12 shows the top institutions of subsequent enrollment for domestic non-residents and International admits. Both international and non-Illinois resident applicants tended to have a broader geographic range of institutions compared to Illinois residents.

Highly Qualified Students

Table 13 shows the subsequent enrollments of students disaggregated by ACT – a measure of pre-enrollment academic preparation. Three ACT groupings are shown – ACT greater than 20 and less than 25; ACT greater than 24 and less than 31; and ACT greater than 30. The top three institutions remain the same across the ACT groups – followed by more distinct enrollment choices for each ACT group.

Table 13: Most Frequently Attended Institutions by ACT Groups

One final comparison examines the PAP candidate pool. The 2017 PAP candidate pool was established for selection committee review from the admitted student population through February 2017. From the candidate pool, a total of 1,152 students were offered PAP Scholars scholarships, 52 were offered PAP Honors scholarships and 778 were not offered either PAP scholarship. Table 14 details the subsequent enrollment choices of the ANE records of the PAP candidate pool.

Table 14: Fall 2017 PAP Candidate Pool Institutions of Subsequent Enrollment

Appendix A

CONSTRUCTING THE DATA SET

The data from this report were received from NSC in mid-October. In instances where the NSC response file reflected multiple institutions of enrollment, the criteria established to handle these records are as follows.

(a) If the enrollments were chronological (i.e., summer and fall enrollment), the fall term institution was used over the summer term enrollment institution. (b) If concurrent enrollment reflected a part-time and full-time attendance, the institution of fulltime attendance was used. (c) If concurrent enrollment reflected a two-year and four-year institution, the four-year institution was used.
